

To Chairman Powell

I would like to let you know of my complete disgust at your conduct on the job. You show no sign of representing the American people. Your willingness to give time to all of the corporate interests without consulting the public-interest groups regarding the upcoming media deregulation act reeks of everything wrong with government today. A recent poll shows that 96% of the people oppose this measure. How do you answer this? Disgusted and appaled, Sam Sadigursky (Brooklyn, New York)
